APPLICATIONS: INTERIOR STREETS, GARDENS, RECREATIONAL AREAS, SQUARES, PARKS...

Multipurpose, constant height channels (without slope), very practical in short drain stretches or with frequent outlets.

Available with various grating locking systems (quick system, locking bars, with screw), all types of grating materials up to load class C250.
ULMA Linear Drainage Channel type EUROKIT: External width 120 mm; Internal width 98 mm and overall height 85 mm to collect rainwater in 1 metre long units. Locking system “click” type without screws.
